INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference K 1687 WO		FOR FURTHER ACTION see Notification of Transmittal of International Search Report (Form PCT/ISA/220) as well as, where applicable, item 5 below.	
International application No. PCT/IB 02/03374	International filing date (day/month/year) 21/08/2002	(Earliest) Priority Date (day/month/year) 28/08/2001	
Applicant KENNAMETAL INC.			

This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This International Search Report consists of a total of 05 sheets.

☒ It is also accompanied by a copy of each prior art document cited in this report.

1. Basis of the report

a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

☐ the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).

b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:

☐ contained in the international application in written form.

☐ filed together with the international application in computer readable form.

☐ furnished subsequently to this Authority in written form.

☐ furnished subsequently to this Authority in computer readable form.

☐ the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.

☐ the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

2. ☐ Certain claims were found unsearchable (See Box I).

3. ☐ Unity of invention is lacking (see Box II).

4. With regard to the title,

☒ the text is approved as submitted by the applicant.

☐ the text has been established by this Authority to read as follows:

5. With regard to the abstract,

☐ the text is approved as submitted by the applicant.

☒ the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.

6. The figure of the drawings to be published with the abstract is Figure No.

☒ as suggested by the applicant.

☐ because the applicant failed to suggest a figure.

☐ because this figure better characterizes the invention.

1
☐ None of the figures.

INTERNATIONAL SEARCH REPORT

PCT/IB 02/03374

Box III TEXT OF THE ABSTRACT (Continuation of item 5 of the first sheet)

The invention relates to a cutting insert (10) made of cemented carbide and to the use thereof for recessing or copy-turning, preferably at a high rotating speed. The cutting insert has at least one recess (2) for insertion therein of a cutting body (3) consisting of a cutting material different from cemented carbide to form a firm connection, the cutting body having formed a cutting edge thereon. To allow employment of the cutting insert of a high mechanical strength even with small dimensions in the high-temperature range, it is proposed that the cutting body consist of a ceramic cutting material and have a geometric shape at least a portion of which is congruent with the geometric shape of the recess. Preferably, the ceramic cutting body has the shape of a circular truncated cone.

Instructions Regarding the Notification (Form P 2251)

We cannot guarantee that this list of publications is complete (§ 43, Para. 7, Patent Act, and § 7, Para. 2, Utility Model Act, combined with § 43, Para 7, No. 1, Patent Act).

The patent literature identified is available for consultation in the library of the German Patent and Trademark Office, 80331 Munich, Zweibrückenstraße 12, or 10969 Berlin, Gitschiner Str. 97. Examined and unexamined German patent specifications are also available in the Patent Information Centers. A list of these Patent Information Centers can be ordered from the German Patent and Trademark Office and from a number of private firms.

Explanations Regarding Attachment 2 (Form P 2253)

- Column 1: Category
- Abbreviations:
- X: Publications that by themselves are prejudicial to novelty or level of invention
 - Y: Publications that, together with other publications, are prejudicial to the level of invention
 - A: General technological background to the prior art
 - O: Unwritten disclosure, e.g. a presentation printed in a subsequent publication that was given in public prior to the application or priority date
 - P: Publications that appeared in the priority interval
 - T: Subsequently published, non-colliding publications that relate to the theory of the invention applied for, and that can be useful for a better understanding of the invention applied for, or show that the thinking or statements of fact on which the invention is based could be false.
 - E: Older applications in accordance with § 3, Para. 2, Patent Act (for searches in accordance with § 43 Patent Act); older patent applications or older utility models according to § 15 GmbG (for searches in accordance with § 7 GmbG)
 - D: Publications that are already cited in the patent application
 - L: Publications cited for special reasons, e.g. regarding the publication date of a citation or in cases of doubt concerning priority.
- Column 2: Publications Identified / Explanations
- Veröff: Publication date of a publication during the priority interval
 - nr: Not searched, because generally known prior art, or not searchable
 - =: Publications that come from the same original application ("patent families") or to which reports or abstracts make reference.
 - "-": Not found
- Column 3: Claims Affected:
- These are the claims associated with the relevant publications listed in Column 2.
